

As a general rule, we require the consent of a parent or legal guardian in order to provide healthcare services to a minor child (someone under the age of 18). If your minor child presents to the clinic unaccompanied, we will not be able to see the unaccompanied minor. If the minor is present in the company of an adult other than parents or legal guardian, they must have documentation from the parent or legal guardian giving consent for treatment. If they do not have consent, the appointment will be rescheduled.

Once this form is completed by a parent or legal guardian, it will be placed in your child's medical record for use as necessary. This form will allow us to provide routine and emergency medical treatment for your minor child deemed necessary by qualified medical personnel.
